

A model for predicting gestational diabetes mellitus in early pregnancy: a prospective study in Thailand

Lappharat S, Rothmanee P, Jandee K, Suksai M, Liabsuetrakul T. *Obstet Gynecol Sci.* 2022 Mar;65(2):156-165.

- Early screening: useful for early detection & effective treatment to lower adverse events in both mother and baby
- There is a lack of consensus on screening for GDM in early pregnancy

Nomogram to predict the probability of early onset GDM at the first antenatal visit: easy-to-use and low-cost tool
